

AN OMEGA MORGAN® COMPANY

### INDUSTRY:

Power / Electric

### PROJECT TYPE:

Machinery Moving

### PROJECT OVERVIEW:

Walker Brothers' heavy equipment movers executed a large-scale project in Beverly Hills, CA, for the power industry. The project involved moving numerous pieces of heavy equipment, the largest of which weighed 22,000 pounds, in and out of an underground substation.

### EQUIPMENT USED:

20-ton forklifts with custom hydraulic hoist boom, 8-ton carry deck crane, 40-ton hydraulic crane with custom rigging, and dollies

### PROJECT:

## LARGE-SCALE UNDERGROUND MACHINERY MOVE
